

EAGLE INVITE WEATHER RELATED CHANGES

Due the heavy accumulation of rainfall there will be several changes to the format of the Bill Greiten Eagle Invitational.

A good portion of the third mile is underwater at this time. As a result **THE RACE DISTANCE WILL BE CHANGED TO 4K**. We felt that the course would not dry out enough to fix the damage from the rains in that section of the course.

The time schedule will remain the same.

No team tents or camps will be allowed on the course. Teams may set-up their tents in the designated west end of UWP Parking Lot C. No stakes may be used to secure your tent – weights only.

There will not be any water at the finish line (Do to the sheer weight of 25 coolers of water it is not feasible to transport them over the saturated ground).

It is still going to be wet – but the course will be safe. It is going to be a day of great, real old school cross country. That is what our sport is truly about.
